NEW AND IMPORTANT DISCOVERY. DR. PHELPS' COMPOUND \_ TOMATO PILLS,

- {entineary vegetable.}\*

A New and Invaluable Medicine for all Diseases. arising from Impurities of the Blood, Morbid

Secretions of the Liver and Stomuch; ulsu. 4 substitute for Calomel;

as a Cuthartic in Fevers and all

Billious Affections.

HESE popular Pills being a combination of a discovered Alkaline substance, extracted from the TOMATO PLANT, with other vegetadiboni or bring and evel dell'in acoustidue eld and diffuse its effects, are believed to be the best Alterative and Cathartic Medicine ever discovered. They have been abundantly and successfully tried, and have received universal approbation for Scrof-

ula, Dyspepsia, Jaundice, Hillions Discesos, Gravel, Rheumanism, Coughs, Colds, Influenza, Catarrh, Nervous Diseuses, Acid Stomachs, Glandular Swellings of all thils, Costiveness, Cholic, Headache & c. c. They are an antidote to Contagious and Epidem

ic diseases; prevent the formation of Billious and Liver affections Fever and Ague, &c., in those who reside in hot chimates, and low and marshy countries, and arounce best Cathartic that can be med for those localities. Scamen willfind them en intitalible remedy for the Schroy; and Trevellers. the best medicine they can use to counteract ngers of exposure in unhealthy chinates. For ordrainty Family Physic, they are universally approv-

ed as the bestever offered.

These Pills have a powerful and salutary operation upon the Chandular System, formating all obstructions from the Gland, wherever situated, Scuttering the Chang and Chang Course, and Statier and Scrofulous, Talutain all their forms, and of persevered in, no case of Scrofula, however seivere, can resist its influence. It is in their operaiton on the Glandular System, that their effects are so peculiar and potent, and so nearly resemble that of Calonel. In fact, the Tomatine has all the Alterative Depostruent and Cathartic properties of Calomel, without ever producing unpleasant or injurious effects under any circumstances, either from exposure to cold or wet; on the contrary, the Compound Tomato Pills are the best remedy ever known to chunteract the effects of Mercury, completely eradicating every particle of it from the system, and renowating the Constitution broken down by its nee; which it does by correcting the state of the blood, and through that, correcting the morbid secretions of the glauds, and restoring them to a healthy and their own proper action. Its effects are analogous to Barragarithe and Blood Root, and in its combined action in the ingredients composing the Pills, it exerts a universal action peguliar to itself.

The peculiar virtues of the Toinnto Plant, have for a lung time attracted the attention of the Medical profession and the Public, and a lively interest has recently been directed to the future develope-Anest of its active powers, and its Antibilious and Afterative qualities; which the Proprietor is now happy in being able to grathly and presents like Pills to the Public, with the full confidence of their being the most safe and valuable remedy ever discovered adapted to all cases where nature is disturbed, and when any of the functions do not perform their natural or healthy action.

Numerous certificates of cures, from those who have taken them, and the testimony of several Physicians who have prescribed tham, all concur in carroborate this opinion. The rapidly increasing demand for, and the universal approbation tessowed acquainted with Messrs. J. P. Inglis, John S. Furthern trems on additional currence of the contraction o its and usefulness.

In presenting this article to the public, the Proorietor was induenced by the hope that a medicine prepared with much care, and strict regard to the Chemical and Therapeutic properties of its several ingredients, should take it place of the thousand and one irresponsible nostrums of the present day, with which the country is deluged and from the lavor already bestowed upon it by physicions and others, he feels justified in expecting this result.

Often have the cures performed by this medicine heeft the antiject of aditorial commont, in various newspapers and journule, and it may with troth he asserted that no medicine of the kind has ever received testimonials of greater commendation than are strached to this.

Females from forty to fifty years of age will find them a powerful assistant to nature; in the important change in the functions of the system, removing all liabilities to Cancers, glandular swellings, &c. and assisting to establish that new action in the an imal economy which nature often fails to do. None should avoid a free and continued use of them, if They wish to escape a long train of incurable maladies. For this purpose one should be taken everynight and morning, and continued as long as any

For that congested and deranged state of the system which occurs in the commencement of Spring and Summer, these Pills of are particularly applicaole, in preventing Rheumatism, Coughs, congestion of the lunes, &c., and have prolunged many a life that otherwise would have been a sacrifice to the changes of the season.

Those persons liable to sore throats, swelling of the glands, coughs, and other symptoms indicating Scorofula or Consumption, should take warning in season, and embrace a remedy, which, while it is searching out and crathching discase, makes no de ductions from the vital powers of the system.

As a Dietetic or Dinner Pill, one taken half an bour after dinner, will sufficiently stimulate the digestive powers of the stomach to a healthy and invigorated action, and they are found extremely service able for

those who include in long dinners, or late suppers, or immoderately in desserts or fruit.

W. For a full account of this interesting discovers, testimonials, mode of operation, &c., see pain-phiets, in the hands of all who sell these Pills.

From the Boston Morning Post. New Medicine. Au Alkaline principle called Tomatine has been discovered in the Solanum class of plants, particularly in the Tomato, which promises to be of peculiar service in Lung Affections, Scrofula and Glandular obstructions, particularly of the Liver also an antidote to Mercury, it is embodied in the Compound Tomato Pills, which are truly worthy of a trial.

PILLS: Unlike the numerous speculations of the day, there is one medicine which deserves the popularity and patronage it is receiving. We allude to Dr Phelps' Compound Tomato Pills. Judging from the patronage they are receiving from the Medical Faculty, and the approbation of these who have used them, we should expect they would supercede all others in use, as a femily undicide. Being introduced by a respectable and practical member of the Medical profession, whose character in this vientity is a sufficient guarantee for the bhayacter of his medicine, we are enabled thus confidently to

speak of it, and fully believe it is entitled to the
